

# Hydrology in the Humid Tropic Environment

(La Hidrología en el Medio Tropical Húmedo)

Edited by

A. IVAN JOHNSON

*AIJ Water and Soil Consulting, Arvada, Colorado, USA*

CARLOS A. FERNANDEZ-JAUREGUI

*UNESCO Regional Office for Science and Technology for Latin America and the Caribbean (ROSTLAC), Montevideo, Uruguay*

Proceedings of the international symposium "Hydrology in the Humid Tropic Environment" held at Kingston, Jamaica, 17-23 November 1996. The conference was convened by the International Association of Hydrological Sciences, the Latin American/Caribbean Regional Office of UNESCO and the Water Resources Authority of Jamaica

*The publication of the proceedings was financially sponsored by:*

*The United Nations Educational, Scientific and Cultural Organization (UNESCO)*

IAHS Publication no. 253  
in the IAHS Series of Proceedings and Reports

## Contents

Preface by <i>A. Ivan Johnson &amp; Carlos A. Fernández-Jáurequi</i>	v
Prefacio par <i>A. Ivan Johnson &amp; Carlos A. Fernández-Jáurequi</i>	vii
<b>1 Environmental contamination and impacts</b> (Contaminación y impacto ambiental)	
Effects of a dredge mining operation on the hydrogeological regime in a humid tropical environment <i>Fenda A. Akiwumi</i>	3
Water budget analysis—a tool to minimize leachate production <i>A. Lundberg</i>	15
Suspended sediment yield prediction models for Costa Rican watersheds <i>Julio C. Calvo</i>	27
Salinization of shallow sandy coastal aquifers: a case study from parts of the Niger Delta region of Nigeria <i>Kalu O. Uma</i>	33
Origin of trace elements in the Bolivian Amazonian drainage basin <i>P. Seyler, J. L. Guyot, L. Maurice-Bourgoin, F. Sondag, F. Elbaz-Poulichet, H. Etcheber &amp; J. Quintanilla</i>	47
<b>2 Hydrologic methods and analysis</b> (Metodos y análisis hidrológico)	
Rainfall monitoring in the humid tropics using a multisource method <i>Eric C. Barrett, Michael J. Beaumont, Paul A. Brown &amp; Martin C. Todd</i>	61
A study on soil moisture monitoring by using airborne SAR images <i>Li Xingchao</i>	75
Monitoring and mapping areas affected by water control projects in coastal Guyana <i>V. Singhroy</i>	81
Water balance studies of bunded rice fields in the Chhattisgarh region of Central India and some strategies to improve the low land rainfed rice productivity <i>A. S. R. A. S. Sastri</i>	93
A program for evaluating rainfall erosivity indices for tropical conditions <i>Richard Cooke, Terrence Johnson &amp; Joseph Lindsay</i>	101
Amazon suspended sediment yield measurements using an Acoustic Doppler Current Profiler (ADCP): first results <i>Jean Loup Guyot, Naziano Filizola &amp; Valdemar Guimarães</i>	109
Environmental monitoring systems in South Florida, USA <i>Leslie A. Wedderburn</i>	117
<b>3 Modelling and statistical analysis</b> (Modelación y análisis estadístico)	
Identifying and modelling the hydrological patterns within a headwater humid tropical catchment <i>Helena Moličová, Mike Bonell &amp; Pierre Hubert</i>	129
Application of a Linked Watershed Waterbody Model to Kingston Harbour in Jamaica <i>Michael O. Walters &amp; Herbert Thomas</i>	137

Incorporation of rainfall into modelling for optimal water allocation on the Rio Cobre Irrigation Scheme, Jamaica <i>Alwin L. Hales &amp; Martin A. Burton</i>	147
A conceptual hydrogeological model for a young basaltic shield volcano: Piton de la Fournaise, Reunion Island <i>M. Courteaud, B. Robineau, J. L. Join, J. Coudray &amp; E. Rasolomanana</i>	157
Numerical modelling of vertically extensive groundwater bodies in Maui, Hawaii: an alternative to perched aquifers <i>Stephen B. Gingerich</i>	167
Simulation of hydrology and erosion in a Texas watershed using SWAT <i>Raghavan Srinivasan, Tharacad Ramanarayanan, Jeffrey Arnold &amp; Steven Bednarz</i>	175
Assessing climate change impacts on the Rio Cobre basin, Jamaica <i>Reginald Blake, Reza Khanbilvardi, Lin Errand, David Rind &amp; Cynthia Rosenzweig</i>	185
Fractal characteristics of drainage basin boundaries in Puerto Rico <i>Scott Rice-Snow</i>	195
<b>4 Information and data systems</b> (Sistemas de información y de datos)	
Latin American and Caribbean hydrological cycle and water resources activities information system (LACHYCIS) <i>Carlos A. Fernández-Jáuregui</i>	205
CATHALAC: a search for better understanding of the humid tropics of Latin America and the Caribbean <i>Maria Concepción Donoso &amp; Nicolaas J. P. M. de Groot</i>	213
Inter-American Water Resources Network (IWRN): a strategy for building partnerships in the Western Hemisphere <i>David W. Moody &amp; Christine R. Devaux</i>	223
The Inter-American Geospatial Data Network: developing a Western Hemisphere geospatial data clearinghouse <i>Michelle L. Anthony, Jacqueline M. Klaver &amp; Robert J. Quenzer</i>	231
The National Water Data Exchange—capabilities and trends in the dissemination and exchange of water data <i>James S. Burton</i>	237
<b>5 Legal and societal impacts</b> (Impactos legales y sociales)	
Surface water withdrawal permit programmes for humid regions <i>J. Wayland Eheart</i>	251
Two models of surface water management for a water-short world <i>Joseph W. Dellapenna</i>	257
A participatory approach to small community environmental problem assessment: water resource examples in the Caribbean <i>Alexander Fernald</i>	267
<b>6 Urban drainage</b> (Drenaje urbano)	
Urban water resources management in tropical climates <i>Benedito Braga</i>	277
A decision support system for flood flow analysis in complex watersheds <i>Rubem La Laina Porto, Kamel Zahed F. &amp; Alexandre Nunes Roberto</i>	287

Urban drainage planning in Brazil	<i>Carlos E. M. Tucci</i>	295
The physical geography and flooding of Peninsular Malaysia	<i>Ngai Weng Chan</i>	303
<b>7 Karst and the environment</b>		
<b>(El karst y el medio ambiente)</b>		
Mathematical simulation of karst development	<i>Leslie F. Molerio León</i>	315
Contaminant transport mechanisms in karst terranes	<i>Kristine Uhlman &amp; Wendell Barner</i>	327
Hydrogeological exploration with geomathematical tools in karstic and fissured non-karstic aquifers	<i>Leslie F. Molerio León, Mario G. Guerra Oliva, Ernesto Flores Valdés &amp; Ernesto Rocamora Alvarez</i>	337
Hydrological characteristics of one of the most important humid watersheds in Turkey: the Upper Zamanti River watershed	<i>Ömer Murat Yavaş</i>	347
Travel time prediction within the hydrologic cycle of a carbonate-rimmed island	<i>Wendell L. Barner</i>	357
A dual-porosity approach to simulate groundwater flow in fractured porous media: application in the Itxina karstic aquifer, Spain	<i>J. Gárfias, C. André, H. Llanos &amp; I. Herrera</i>	367
Development of a national water quality monitoring programme for Belize	<i>J. D. Stednick, D. M. Gilbert &amp; M. D. Lee</i>	379
Understanding and management of water resources in karstic environments: report on a panel discussion	<i>A. G. Fernald &amp; D. M. Gilbert</i>	387
<b>8 Coastal and island hydrology</b>		
<b>(Hidrología de costas e islas)</b>		
Groundwater flow dynamics beneath atoll islands	<i>Jerry F. Ayers</i>	397
The problem of prospecting and development of inland groundwater resources in young tropical volcanic islands	<i>J. L. Join, M. Courteaud, B. Robineau, E. Nicolini &amp; J. Coudray</i>	405
Seasonal variations in isotopic content ( $^{18}\text{O}$ - $^2\text{H}$ ) of rainfall over an intertropical humid island (Reunion Island, southwest Indian Ocean)	<i>E. Nicolini, J. Coudray, O. Grünberger &amp; C. Jusserand</i>	413
Monitoring the hydrological regime in tropical islands: Cuban experience in managing the hydrological network	<i>Eduardo O. Planos Gutiérrez</i>	421
A neutron activation study on the hydrogeochemistry of natural waters of Haikou, Hainan Island, China	<i>Gu Wei-Zu</i>	429
Dissolved matter fluxes in the inner delta of the River Niger	<i>J. P. Bricquet, L. Gourcy, G. Mahé, D. Orange, C. Picouet &amp; J.-C. Olivry</i>	435
Regional characteristics of the hydrochemistry in the humid tropics of Bolivian Amazonia	<i>Jean Loup Guyot, Jorge Quintanilla, Johnny Martinez &amp; Héctor Calle</i>	447

The symposium itself was sponsored and funded by:

**International Association of Hydrological Sciences**

**UNESCO International Hydrological Programme**

**The Jamaican Ministry of Environment and Housing**

**Jamaica Water Resources Authority**

**US National Committee for Scientific Hydrology**

**US National Science Foundation**

**The Water Center for the Humid Tropics of Latin America and the Caribbean (CATHALAC)**

*The Editors wish to acknowledge the following for contributing to the organization of the symposium and to the publication:*

- *Thorant Hardware, Permanent Secretary, Jamaican Ministry of Environment and Housing*
- *Basil Fernandez, Managing Director, Jamaica Water Resources Authority*
- *María Concepción Donoso, Director, CATHALAC*
- *William Back and John Powell, US Geological Survey*
- *David Moody, OAS Consultant*
- *Geo-Partners of Kingston and Maureen Clarke of Jamaica Water Resources Authority provided the symposium secretariat and registration and prepared programme and field guide booklets*
- *Betty Johnson assisted with secretarial services throughout the several years of symposium planning activities*
- *Abstracts were translated into Spanish, or checked for correct Spanish, by Angelica Lussich (UNESCO-ROSTLAC, Montevideo, Uruguay)*
- *The papers were checked and reformatted by Frances Watkins and Cate Gardner (IAHS Press, Wallingford, UK), who also assembled the final camera-ready pages*
