Science, Research and Development

Environment and climate programme

## TABLE OF CONTENTS

<b>FOREWORD</b>	VII
<i>R. Casale, European Commission, DG XII</i>	
<b>INTRODUCTORY PAPER</b>	1
The impact of climate change on flooding and sustainable river management <i>P.G. Samuels, Ribamod co-ordinator (HR Wallingford, UK)</i>	
<b>Keynote paper 1</b>	5
Possible consequences of climate change on river basin management <i>H-P. Nachtnebel (University for Agricultural Sciences, AT)</i>	
<b>Keynote paper 2</b>	23
Impact of climate change on water resource systems in Greece <i>M. Mimikou (National Technical University of Athens, GR)</i>	
<b>Paper 1 :</b> The impact of climate change on the flood characteristics of the Thames and Severn rivers <i>N.S. Reynard, C. Prudhomme and S. Crooks (Institute of Hydrology, UK)</i>	49
<b>Paper 2 :</b> Assessment of the impact of climate change on river flow on different scales in the Rhine Basin <i>H. Middelkoop and B.W.A.H. Parmet (Institute for Inland Water Management and Waste Water Treatment, NL); K. Daamen and K. Wilke (Bundesanstalt für Gewässerkunde, D); J.C.J. Kwadijk (WL-Delft Hydraulics, NL); H. Lang and J. Schulla (ETH, CH); B. Schaedler (Landeshydrologie und -geologie, CH)</i>	65
<b>Paper 3 :</b> Climate variability and extreme floods on the lower and middle River Rhine since the Middle Ages <i>P. Krahe (Federal Institute of Hydrology, D)</i>	83
<b>Paper 5 :</b> Potential impacts of climate change on floods in Nordic hydrological regimes <i>N.R. Saelthun (Norwegian Institute for Water Research, N); S. Bergström and G. Lindström (Swedish Meteorological and Hydrological Institute, S); K. Einarsson (National Energy Authority of Iceland, IS); T. Jóhannesson (Icelandic Meteorological Office, IS); T. Thomsen (The Environment and Energy Division, DK); B. Vehviläinen (Finnish Environment Institute, SF)</i>	103
<b>Keynote Paper 3</b>	117
Towards sustainable development of water resources <i>Z.W. Kundzewicz (Polish Academy of Sciences, PL)</i>	

<b>Keynote Paper 4</b>	131
River restoration and integrated catchment management – chicken and egg? <i>J.L. Gardiner (Middlesex University, UK)</i>	
<b>Paper 8 :</b> Climate record of storm surges in Venice <i>G. Cecconi, P. Canestrelli, C. Corte and M. Di Donato (Comune de Venezia, It)</i>	149
<b>Paper 9 :</b> Flood control and ecological rehabilitation of the Meuse River (The Netherlands) <i>H. Duel and P.C.G. Glas (Delft Hydraulics, NL); E.A.M. Ivens (Ministry of Transport, NL) and G.B.M. Pedroli (Institute for Forestry and Nature Research, NL)</i>	157
<b>Paper 11 :</b> Generation of precipitation scenarios for assessing climate change impacts on river basin hydrology <i>C.G. Kilsby, P.E. O'Connell, C.S. Fallows and A.M. Hashemi (University of Newcastle upon Tyne, UK)</i>	163
<b>Paper 12 :</b> Restoration of the Skjern River. Towards a sustainable river management solution <i>K.W. Olesen and K. Havnø (Danish Hydraulic Institute, DK)</i>	171
<b>Paper 13 :</b> Lessons to learn from the UK River Restoration Projects <i>R. Bettess and K.R. Fisher (HR Wallingford, UK)</i>	185
<b>Paper 14 :</b> River rehabilitation along the common Meuse (Flanders-Netherlands) : the integration of physical scale modelling, mathematical hydraulic models and ecological models <i>F. Klijn, R. de Jong and B. Pedroli (Netherlands Institute for Forestry and Nature Research, NL)</i>	199
<b>Paper 15 :</b> On the impact of flood-control reservoirs on downstream flood characteristics <i>A. Brath, L. Dall'Agata and S. Orlandini (Università degli Studi di Bologna, IT)</i>	211
<b>Paper 16 :</b> Integrated flood management – the River Nahe catchment <i>N. Demuth (Landesamt für Wasserwirtschaft Rheinland-Pfalz, DE)</i>	227
<b>Keynote Paper 5</b>	235
Towards sustainable management of river basins – challenges for the 21 <sup>st</sup> century <i>G.E. Galloway (National Defense University, USA)</i>	
<b>Keynote Paper 6</b>	
Impact of climate change on river runoff in mountainous areas <i>P. Burlando, E.M. Frascini and A. Kühne (Swiss Federal Institute of Technology, CH)</i>	251

<b>Paper 17 :</b> Estimating changes in flood frequency under climate change by continuous simulation (with uncertainty) <i>K. Baven (Lancaster University, UK) and S. Blazkova (T G Masaryk Water Research Institute, CZ)</i>	269
<b>Paper 18 :</b> A Swedish perspective on climate change and flood risks <i>S. Bergström and G. Lindström (Swedish Meteorological and Hydrological Institute, SE)</i>	287
<b>Paper 19 :</b> Impacts of trends and uncertainties in river flooding due to climate change <i>M.J. Booij and C.B. Vreugdenhil (University of Twente, NL)</i>	297
<b>Paper 20 :</b> Impact of climate change on the hydrometeorological conditions leading to intense mass movement events in mountainous areas <i>M. Peviani and S. Rafaelli (ISMES SpA, IT); G. Di Silvio (University of Padova, IT)</i>	309
<b>Paper 21 :</b> Effects of climate change influencing storm runoff generation : basic considerations and a pilot study in Germany <i>A. Bronstert, G. Bürger, M. Heidenreich, D. Katzenmaier and B. Köhler (Potsdam Institute for Climate Impact research, DE)</i>	325
<b>Paper 22 :</b> Anthropogenic influence on flood regimes in Norway – Model development strategy in the hydra project <i>Å. Killingtonveit, K. Alfredsen and T. Rinde (The Norwegian University of Science and Technology, N)</i>	341
<b>Paper 23 :</b> LISFLOOD : A rainfall-runoff model for large river basins to assess the influence of land use changes on flood risk <i>A.P.J. De Roo (Space Applications Institute, IT)</i>	349
<b>Paper 24 :</b> Policy and practice for sustainable river maintenance <i>P.F. Borrowes and J. Fitzsimons (Environment Agency, UK); A.T. Pepper (ATPEC, UK)</i>	359
<b>Paper 25 :</b> An environmental approach to detecting the impact of climate and land-use change on sediments in river basins <i>R. Bettess (HR Wallingford, UK)</i>	371
<b>Paper 26 :</b> FLOODSS : Flood Operational Decision Support System <i>C. Catelli (Ente per le Nuove tecnologie l'Energia e l'Ambiente - ENEA, IT); G. Panni (Environmental Technologies and Products – ET&amp;P, IT) and E. Todini (University of Bologna, IT)</i>	381
<b>Overview and Conclusions of the Second Ribamod Workshop</b> <i>J.C.I. Dooge (University College Dublin, IE) and P.G. Samuels (HR Wallingford, UK)</i>	395

A great deal of additional information on the European Union is available on the Internet. It can be accessed through the Europa server (<http://europa.eu.int>).

Cataloguing data can be found at the end of this publication.
