

**PROGRESS IN
WATER POLLUTION CONTROL
IN
JAPAN**

2000

JAPAN SEWAGE WORKS ASSOCIATION

CONTENTS

FOREWORD	T. Annaka	i
PAPERS PRESENTED AT 73 rd WEF ANNUAL CONFERENCE AND EXPOSITION		
1. Evaluation of Estrogen-like Substances Discharged from Sewage Treatment Plants along an Urbanized River in Japan		
A. Takahashi		1
2. Evaluation of Ozone Disinfection from View Points of Inactivation Disinfection Effects and Byproducts Formation		
T. Hatatsu		13
3. Experimental Studies on a New Process for Nitrogen Removal with Immobilized Microbes in OxicTanks Using Sewage Treatment Plant of Commercial Scale		
T. Nishimura		25
4. Estimation of Inundation Damage by Using GIS Data		
W. Ohnami		39

**ABSTRACTS OF TECHNICAL PAPERS PUBLISHED IN RESEARCH JOURNAL OF JAPAN
SEWAGE WORKS ASSOCIATION IN 2000**

1. A Study on a Sedimentation and Separation Model of the Thickening Decanter Centrifuge S. Yano K. Hata.....	56
2. The Performance of Removal of Nitrogen and Phosphorus by Using the Anaerobic-Oxic-Anoxic-Oxic process (AOAO process) Y, Sato, M. Nagasaka	57
3. Effects of the Traffic Directions on the Connections Manholes with Ceramic Sewer Pipes T. Kawai, I.N Robertson, K. Saeki, M. Goto	58
4. A Novel Method of Determining Cellulosic Substances in Raw Wastewater and Sludge K. Iwahori, Y. Sano, S. Honda, N. Miyata.....	59
5. Self-Purification of Nitrogen in Middle Area of Urban River Basin Y. Takahashi, Y. Satou, K. Kurosawa, M.Nakamura, H. Makise J. Matsumoto ...	60
6. Separation and Thickening Function and Fussy Control System of DECANTER Centrifuge S. Yano, J. Iwase	61
7. The Reduction of the Life Cycle Cost by the Improvement of Anaerobic Digestion in Sludge Treatment Process M. Sawai.....	62
8. Co-melting of Sediment from Lake Biwa and Sewage Sludge Incineration Ash M. Takaoka, N. Takeda, S. Okajima, M. Hiraoka, T. Fujiwara	62
9. Study on Determination of the AR degree and Identification of the AR Coefficient for Runoff Analysis of Urban Storm Water K. Yoshimoto	63
10. Advanced Treatment of Municipal Sewage by Pre-Coagulation and Biofilm Process Y. Kanjo, I. Somiya, H. Tsuno, M. Kagayama, I. Kinoshita, M. Imashiro, T. Hidaka	63
11. Bionomic Studies on the Chironomid Midges (Diptera, Chironomiidae) Occuring in a Municipal Sewage Treatment Plant K. Ogata, M. Sasa, T. Kozaki	64
12. Simultaneous Determination of Selenium and Arsenic by Hydride Generation/ICP-AES Method Y. Yonemoto, Y. Nagaraku	65
13. Measurement of Water in Sludge with Expression Under High Pressure R. Noda, Y. Kashino, T. Kasakura, K. Matsubara	66
14. Phosphorus Removal by Crystallization Process Using Calcium Silicate as Seed Crystal Material K. Moriyama, Y. Minawa, T. Kojima, Y. Fukushima, T. Matsumoto	66
15. Development of Enumeration Method of Aerobic Denitrifier with Antigen-Antibody Reaction I. Somiya, H. Tsuno, T. Fujiwara, Y. Hasebe	67

16. The Effect of Temporary Increase in Influent on Decomposition of Organic Matters, Nitrification and Oxygen Uptake Rate Y. Sato, M. Nagasaka	68
17. Economic Appraisal of Sewerage in Terms of Living Amenity —Approach by Double-Bounded Dichotomous Choice Contingent Valuation Method— S. Okamoto, T. Yoshida, K. Sasabe	69
18. Study on Rational Design of Final Sedimentation Tanks Overflow Rate Reflecting Activated Sludge Settleability Y. Kawaguchi, Y. Sakai, H. Mikami.....	70
19. Elemental Analysis of Sewage and Sewage Sludge Samples Using Inductively Coupled Plasma Mass Spectrometry M. Toda, T. Kaneko, S. Takeda, T. Saiki.....	71
20. Removal of Heavy Metals from Incinerated Ash of Sewage Sludge A. Ito, K. Yamada, Y. Takeda, K. Kitada, J. Aizawa, T. Umita	72
21. Behavior of Coliforms and Coliphages in a Novel Sewage Treatment System Consisting of UASB and DHS Units S. Uemura, K. Takahashi, A. Takaishi, H. Harada, A. Ohashi, I. Machdar	73
22. The Affection of Liquid Film Diffusion on a Biofilm Fixed Inside Porous Medium H. Deguchi, T. Kawauchi	74
23. Study on Cross-sectional Shape of Cushion and Mechanical on Characteristics on Jacked Pipes Construction T. Kawai, I. N Robertson, T. Ogihara, J. Kimoto.....	74
24. Study of Optical Fiber Network at Regional Sewerage System T. Nakazato, H. Suzuki	75
25. Improved Nutrient Removal and Sludge Settleability in Sponge Media-Assisted SBR Process M. Takashima, R. Ikemoto	76
26. Upgrading of Sulfate Removal by the Anaerobic Reactor with an Ultrafiltration Membrane O. Mizuno, H. Takagi, T. S. Lee, T. Noike	77
27. Effect of Annual Measurement Frequency on Reliability of Annual Mean Concentrations for Heavy Metals in Dehydrated Sludge M. Watanabe	77
28. A Case Study on Segment Damage during Acute-Curve Construction of a Deep-Underground Shield Tunneling Project K. Ohsako, M. Maeda, M. Nakabo, M. Kurozumi	78
29. An Experimental Validation of the Function and Design Works of Flow-Speed -Controllable Siphon System K. Oosako, H. Suzuki, K. Kushiyama, T. Udagawa	79
