

# Wastewater Reclamation, Recycling and Reuse

Selected proceedings of the 3<sup>rd</sup> International Symposium on Wastewater Reclamation, Recycling and Reuse, held in Paris, France, 3–6 July, 2000

**Issue Editors: F. Brissaud\*, J. Bontoux\*\*, R. Mujeriego\*\*\*, A. Bahrit, C. Nurizzo††, and T. Asano†††**

\*Hydrosciences, Maison de l'Eau, Université Montpellier II, 34095 Montpellier Cedex 05, France

\*\*Faculté de Pharmacie, Université Montpellier I, 34060 Montpellier Cedex, France

\*\*\*Universidad Politecnica de Cataluna, Gran Capitan, s/n., 08034 Barcelona, Spain

†INRGREF, BP 10 Ariana 2080, Tunisia

# Contents

ix Preface

## Water reuse management

- 1 **Climbing the ladder: a step by step approach to international guidelines for water recycling** J. Anderson, A. Adin, J. Crook, C. Davis, R. Hultquist, B. Jimenez-Cisneros, W. Kennedy, B. Sheikh and B. van der Merwe
- 9 **Prospects, problems and pitfalls of urban water reuse : a case study** S.W. Hermanovicz, E. Sanchez Diaz and J. Coe
- 17 **Water reuse in Japan** M. Ogoshi, Y. Suzuki and T. Asano
- 25 **Role of water reuse for enhancing integrated water management in Europe and Mediterranean countries** V. Lazarova, B. Levine, J. Sack, G. Cirelli, P. Jeffrey, H. Muntau, M. Salgot and F. Brissaud
- 35 **The Virginia pipeline : Australia's largest water recycling project** B. Kracman, R. Martin and P. Sztajn bok
- 43 **Wastewater reuse in Italy** S. Barbagallo, G.L. Cirelli and S. Indelicato
- 51 **Reclaimed municipal wastewater – a potential water resource in China** He Pinjing, L. Phan, Gu Guowei and G. Hervouet
- 59 **Strategies for development of industrial wastewater reuse in Thailand** C. Visvanathan and A. Cippe
- 67 **Technical economical modelling of integrated water management : wastewater reuse in a French Island** P. Xu, F. Valette, F. Brissaud, A. Fazio and V. Lazarova
- 75 **Some economic considerations on wastewater reclamation for irrigation, with reference to the Italian situation** C. Nurizzo, L. Bonomo and F. Malpei
- 83 **Small scale water recycling systems – risk assessment and modelling** C. Diaper, A. Dixon, D. Butler, A. Fewkes, S.A. Parsons, M. Strathern, T. Stephenson and J. Strutt
- 91 **A methodology to evaluate water and wastewater treatment plant reliability** D. Eisenberg, J. Soller, R. Sakaji and A. Olivieri

## Agricultural irrigation and storage

- 101 **From sewage treatment to wastewater reuse. One century of Paris sewage farms history** B. Védry, M. Gousailles, M. Affholder and J. Bontoux
- 109 **Cultural eutrophication control through water reuse** L. Sala and R. Mujeriego
- 117 **Reuse of reclaimed wastewater for golf course irrigation in Tunisia** A. Bahri, C. Basset, F. Oueslati and F. Brissaud
- 125 **Ammonia removal in a deep reclaimed wastewater reservoir before agricultural reuse** S. Delgado, S. Elmaleh, F. Diaz, J. Rodriguez-Sevilla and M.C. Marrero
- 133 **How partial nitrification could improve reclaimed wastewater transport in long pipes** S. Delgado, M. Alvarez, L.E. Rodriguez-Gomez, S. Elmaleh and E. Aguiar
- 139 **Secondary wastewater disposal for crop irrigation with minimal risks** G. Oron, R. Armon, R. Mandelbaum, Y. Manor, C. Campos, L. Gillerman, M. Salgot, C. Gerba, I. Klein and C. Enriquez
- 147 **Wastewater quality relationships with reuse options** R. A. Patterson

## Disinfection for water reuse

- 155 **Removal of microorganisms in different stages of wastewater treatment for Mexico City** B. Jiménez, A. Chávez, C. Maya and L. Jardines
- 163 **Wastewater disinfection by low pressure UV and ozone : a design approach based on water quality** P. Savoye, M.L. Janex and V. Lazarova
- 173 **UV disinfection for reuse applications in North America** G. Sakamoto, D. Schwartzel and D. Tomowich
- 179 **Bacterial responses to ultraviolet irradiation** E.R. Blatchley III, N. Dumoutier, T.N. Halaby, Y. Levi and J.M. Laine
- 187 **Faecal bacteria and bacteriophage inactivation in a full-scale UV disinfection system used for wastewater reclamation** A. Bourrouet, J. Garcia, R. Mujeriego and G. Peñuelas
- 195 **Biological control tools for wastewater reclamation and reuse. A critical review** M. Salgot, C. Campos, B. Galofré and J.C. Tapias

## Membrane techniques

- 203 **Feasibility of the membrane bioreactor process for water reclamation** S. Adham, P. Gagliardo, L. Boulos, J. Oppenheimer and R. Trussell
- 211 **Advanced biological unit processes for domestic water recycling** B. Jefferson, A. L. Laine, T. Stephenson and S.J. Judd
- 219 **Evaluation of an integrated membrane system for water repurification** P. Gagliardo, S. Adham, A. Olivieri and R. Trussell
- 225 **Membrane filtration of wastewater effluents for reuse: effluent organic matter rejection and fouling** C. Jarusutthirak and G. Amy
- 233 **Pilot scale nanofiltration membrane separation for waste management in textile industry** I. Koyuncu, E. Kural and D. Topacik
- 241 **New parameters for monitoring fouling during ultrafiltration of WWTP effluent** J.H. Roorda and J.H.J.M. van der Graaf

## Water reuse practices

- 249 **Water quality assessment for indirect potable reuse: a new methodology for controlling trace organic compounds at the West Basin Water Recycling Plant (California, USA)** B. Levine, K. Reich, P. Sheilds, I.H. Suffet and V. Lazarova
- 259 **Demonstration, the solution to successful community acceptance of water recycling** H.E. Gibson and N. Apostolidis
- 267 **Source water impact model (SWIM) – a watershed guided approach as a new planning tool for indirect potable water reuse** J.E. Drewes and P. Fox
- 277 **Reuse of heat energy in wastewater : implementation examples in Japan** N. Funamizu, M. Iida, Y. Sakakura and T. Takakuwa
- 287 **Water recycling at the Millennium Dome** S. Hills, A. Smith, P. Hardy and R. Birks

## Advanced treatment for water reuse

- 295 **Chemical oxidation of organic matter in secondary-treated municipal wastewater by using methods involving ozone, ultraviolet radiation and TiO<sub>2</sub> catalyst** T. Tanaka, K. Tsuzuki and T. Tagaki
- 303 **Particle size analysis as a tool for performance measurements in high rate effluent filtration** J.H.J.M. van der Graaf, J. de Koning and J. Tang
- 311 **Improved O<sub>3</sub>/H<sub>2</sub>O<sub>2</sub> oxidation process for wastewater reclamation** M. Yang, Y. Zhang, R. Qi, K. Uesugi and H. Myoga
- 319 **Removal of color substances using photocatalytic oxidation for membrane filtration processes** J.H. Tay, D. Chen and D.D. Sun

- 327 **The effects of water reclamation technologies on biological stability of industrial water** W.J. Ng, S.L. Ong and J.Y. Hu
- 335 **The filter system for tertiary treatment of sewage effluent by land application – its performance in a subtropical environment** E.A. Gardner, D. Morton, J. Sands, P. Matthews, F.J. Crook and N.S. Jayawardane
- 343 **Water quality transformations during soil aquifer treatment at the Mesa Northwest Water Reclamation Plant, USA** P. Fox, K. Narayanaswamy, A. Genz and J.E. Drewes
