

Design, Operation and Economics of Large Wastewater Treatment Plants

Selected Proceedings of the 8th IAWQ International Conference
on Design, Operation and Economics of Large Wastewater Treatment
Plants, held in Budapest, Hungary, 6–9 September, 1999

Issue Editors: H Bode, T Grünebaum and N Jardin

Ruhrverband, Kronprinzenstrasse 37, D-451 28 Essen, Germany

Contents

vii Preface

Wastewater Treatment in Hungary

- 1 **EU legislation concerning wastewater treatment – tasks for wastewater treatment developments in Hungary** E Fleit, Gy. Bagyinski & D Vimola
- 9 **Evolution of the Southpest Wastewater Treatment Plant**
A Jobbagy, B Literathy, F Farkas, Gy Garai & Gy Kovacs

Large Projects and Case Studies

- 15 **Step-feed operation at short detention times – a cost effective method for improving wastewater treatment**
R E Adamski V Desantis, A Spangel, J Pynn, L Betty, C M Koch & S A Gyory
- 21 **Performance and economics of BNR plants in the Chesapeake Bay watershed, USA**
C W Randall & E Ubay Cokgor
- 29 **Full scale implementation of post denitrification at the Blue Plains AWT in Washington D.C.**
T Sadick, W Bailey, A Tesfaye, M McGrath, G Daigger & A Benjamin
- 37 **Provision of sewage and sludge treatment for Athens**
V K Thomas, D V Adraktas & C Taylor
- 45 **Critical factors for implementing sludge processing of the Rome wastewater treatment plants** G Mininni, A Salera, E Rolle & A Carucci
- 53 **Upgrading of Mogden sewage treatment works** A V Koodie & I J Kirkaldy
- 63 **Optimization of nutrient removal in the WWTP Zurich-Werdholzli**
H Siegrist, T Brack, G Koch, A Nussbaumer & W Gujer
- 73 **WWTPs in rock – an economical and environmental alternative** A Andersson & J Hultgren
- 81 **Kappala 2001 – Upgrading and expansion of the Kappala wastewater treatment plant: project management** B Bengsston & T Palmgren
- 89 **Concept development for the optimisation of the Hamburg wastewater treatment plants**
G Ladiges, N-P Bertram & R Otterpohl

Planning, Treatment Processes and Modelling for Design

- 97 **Enhancing nitrification in North American activated sludge plants**
G T Daigger & D S Parker
- 107 **Enhancing the removal of ammonia in nitrifying biofilters by the use of zeolite containing expanded clay aggregate filtermedia** B Gisvold, H Odegaard & M Follesdal
- 115 **Operation of full-scale fluidized bed for denitrification**
J Bosander & A D Westlund
- 123 **Cost-effective upgrading of the Arnsberg WWTP by post denitrification with a moving bed system** N Jardin, L Rath, A Sabin, F Schmitt, D Thole & S Kuhn
- 131 **Technical solutions for upgrading high rate and medium loaded activated sludge plants for nutrient removal** P Chudoba & R Pujol
- 139 **New German design guideline for single stage activated sludge plants** R Kayser
- 147 **Cost optimisation of nitrogen removal in a compact nitrogen and phosphorus WWTP**
P Sagberg & K Grundnes Berg

- 156 **Integrated sidestream treatment for enhanced enlargement of sewage plants**
G Kolisch & T Rolfs
- 163 **Acidification of primary sludge to promote increased biological phosphorus elimination and denitrification** B Teichgraber
- 171 **The good, the bad and the ugly: process modelling for design** M Bingley & J Upton

Settling Processes of Activated Sludge

- 179 **Modelling and test of aeration tank settling (ATS)**
M K Nielsen, H Bechmann & M Henze
- 181 **Renovation of the WWTP of Bruges**
I Boonen, H Bruynooghe, R Carrette, D Bixio & P Ockier
- 193 **Storm operation strategy: high-flow activated sludge process operation**
R Carrette, D Bixio, C Thoeye & P Ockier
- 201 **Improving secondary clarifier performance and capacity using a structured diagnostic approach** D S Parker, E J Wahlberg & H Z Gerges
- 209 **Design measures to increase the efficiency of secondary sedimentation tanks**
S Schlegel & A Stein
- 217 **Activated sludge population dynamics and wastewater treatment plant design and operation**
J Wanner, I Ruzickova, O Krhutkova & M Pribyl

Operational Experiences

- 227 **Matching odour treatment processes to odour sources** J Jeavons, P Hodgson & J Upton
- 233 **Performance of the biological nitrogen and phosphorus removal in four large WWTPs in Germany** K-H Rosenwinkel, F Obenaus & M Wichern

Industrial Plants

- 241 **Aerobic treatment of industrial waste water – experiences with the dosage of nitrogen and phosphorus** L Prendl & B Niklavcic
- 251 **Biological treatment of potato-starch wastewater – design and application of an aerobic selector** B Nikolavcic & K Svardal
- 259 **Nitrogen removal from wastewater of the chemical company Duslo**
J Buday, L Halasz, M Drtil, I Bodik, P Nemeth & M Buday

Sludge Management

- 265 **Thermophilic process and enhancement of excess activated sludge degradability – two ways of intensification of sludge treatment in the Prague Central Wastewater Treatment Plant**
J Zabranska, M Dohanyos, P Jenicek & J Kutil

Costs and Economics

- 273 **Operation costs and consumption of resources at Nordic nutrient removal plants**
P Balmer
- 281 **Expenditure on the operation of municipal wastewater treatment plants for nutrient removal**
O Nowak
- 289 **The cost of municipal sewage treatment – structure, origin, minimization – methods of fair cost comparison and allocation** H Bode & T Grünebaum
