Contents

Preface	vii
Part I. Foundations of sanitary practice	
Chapter 1. The need for on-site sanitation	3
Introduction	3
Historical evidence	4
The present situation	4
Constraints	6
Priorities	6
Chapter 2. Sanitation and disease transmission	7
Diseases associated with excreta and wastewater	7
How disease is carried from excreta	9
Chapter 3. Social and cultural considerations	15
Social structure	15
Cultural beliefs and practices	15
Concepts of hygiene	16
Beliefs about sanitation and disease	17
Forces for change	17
Responses to change	18
Conclusion	19
Chapter 4. Technical options	21
Open defecation	21
Shallow pit	21
Simple pit latrine	22
Borehole latrine	22
Ventilated pit latrine	22
Pour-flush latrine	23
Single or double pit	23
Composting latrine	24
Septic tank	24
Aqua-privy	25
Removal systems for excreta	26

Chapter 5. Technical factors affecting excreta disposal 31 Human wastes 31 Ground conditions 34 Insect and vermin problems 41	Part II. Detailed design, construction, operation and maintenance	
disposal 31 31 31 31 31 31 31 3	Chapter 5. Technical factors affecting excreta	
Human wastes 31 Ground conditions 34 Insect and vermin problems 41		31
Insect and vermin problems Chapter 6. Operation and maintenance of on-site sanitation Pit latrines Simple pit latrines Ventilated pit latrines Pour-flush latrines Offset pour-flush latrines Offset pour-flush latrines Double-pit offset pour-flush latrines Septic tanks Aqua-privies Composting latrines Chapter 7. Components and construction of latrines Pits Latrine floors Seats for latrines Seats for latrines Seats for latrines Seats for latrines Septic tanks Aqua-privies Chapter 8. Design examples Introduction Pit latrine design Septic tank design Aqua-privies Chipposal of effluent from septic tanks and 136 Disposal of effluent from septic tanks and 202 Chapter 8. Design examples Introduction Pit latrine design Septic tank design Aqua-privies Laga Disposal of effluent from septic tanks and aqua-privies 136	-	31

Part III. Planning and development of on-site sanitation projects	
Chapter 9. Planning	143
The demand for sanitation	143
Project definition	145
Background information	146
Comparison and selection of systems	153
Chapter 10. Institutional, economic and financial	
factors	155
Institutional responsibilities	155
Human resources development	158
Economic factors	162
Financial factors	169
Examples	173
Chapter 11. Development	177
Implementation	177
Operation and maintenance	190
Evaluation	191
References	196
Selected further reading	203
Glossary of terms used in this book	206
Annex 1. Reuse of excreta	212
Annex 2. Sullage	222
Annex 3. Reviewers	228
Index	230
