

Hydrology of Warm Humid Regions

Edited by

JOHN STUART GLADWELL

*Hydro Tech International, PO Box 40504, Waterfront Centre
#11 - 200 Burrard Street, Vancouver, BC
Canada V6C 3L0*

Proceedings of an international symposium held at
Yokohama, Japan, 13-15 July 1993. The
Symposium was organized by the International
Association of Hydrological Sciences (IAHS)
sponsored by the United Nations Educational,
Scientific and Cultural Organization (UNESCO).

FRIC The Foundation of River and Basin Integrated
Communications, Kojimachi Hiraoka Bldg., 1-3
Kojimachi Chiyoda-ku, Tokyo 102, Japan, provided
financial sponsorship for this publication

Preface by *John Stuart Gladwell*

v

1 Hydrology and Man's Influence

- KEYNOTE PAPER: Land-use and hydrology in warm humid regions: where do we stand? *L. A. Bruijnzeel* 3
- The water budget in the Amazon River basin during the FGGE period
Hiroshi Matsuyama, Taikan Oki & Kooiti Masuda 35
- Hydrological processes in the Serra do Mar, São Paulo, Brazil *Motohisa Fujieda, Tetsuya Kudoh & Yukio Mashima* 43
- The hydrological effects of clearing tropical rainforest and of the implementation of alternative land uses *J. M. Fritsch* 53
- Vers un appauvrissement durable des ressources en eau de l'Afrique humide?
J. C. Olivry, J. P. Bricquet & G. Mahé 67
- Impact of hydrological and land use processes on the quality of water in the Gucha catchment, southwestern Kenya *George S. Ongwenyi, Johnson U. Kitheka & James M. Nyagaga* 79
- Hydrogeochemistry of the Ngoko River, Cameroon: chemical balances in a rainforest equatorial basin *P. Seyler, J. C. Olivry & L. Sighe Nkamdjou* 87
- Incidences de l'instabilité des ressources en eau sur la gestion d'un système d'eau aménagé. Cas du Sassandra en Côte d'Ivoire *E. Servat & M. Sakho* 107
- Impacts of floods and drought on the development of water resources of Kenya: case studies of Nyando and Tana catchments *G. S. Ongwenyi, F. G. O. Denga, P. Abwao & J. U. Kitheka* 117
- Forest clearcutting and site preparation on a saline soil in East Texas: impact of element movement *Alexander K. Sayok, Mingteh Chang & Kenneth G. Waterston* 125
- Evaluation of the impact of deforestation to inflow regime of the Hoa Binh Reservoir in Vietnam *Vu Van Tuan* 135
- Algorithme non récursif et récursif: application à la prévision des crues du haut-bassin du Fleuve Sénégal *Soussou Sambou & Claude Thirriot* 139
- The impact of converting grassland to pine forest on water yield in Viti Levu, Fiji
M. J. Waterloo, F. J. Beekman, L. A. Bruijnzeel, K. F. A. Frumau, E. Harkema, H. J. Opdam, J. Schellekens, H. F. Vugts & T. T. Rawaqa 149
- Geochemical characteristics of the major tropical rivers of India *R. Ramesh & V. Subramanian* 157
- Analysis and assessment of hydrological processes in the warm humid region of Liaoning Province: a case study *Yin Hsueh-Chun* 165
- A brief look at rainy season precipitation in China, 1982-1988 *T. Kishii* 175

Analyses of the flow regime of the Chao Phraya River <i>Kuniyoshi Takeuchi</i>	181
Applicability of the modified SCS runoff prediction method to small catchments in Thailand <i>I. Muzik</i>	195
Impact of mechanized selective logging of rainforest on topsoil infiltrability in the Upper Segama area, Sabah, Malaysia <i>M. C. Van der Plas & L. A. Bruijnzeel</i>	203
Impact of roads and compacted ground on post-logging sediment yield in a small drainage basin, Sabah, Malaysia <i>I. Douglas, T. Greer, Kawi Bidin & Waidi Sinun</i>	213
Sediment yield from logged, steep upland catchments in Peninsular Malaysia <i>F. S. Lai</i>	219
Modelling of hydrological processes for estimating impacts of man's interventions <i>Takeshi Hata & Eiji Toyokuni</i>	231
Rainfall layered runoff in forest experimental watersheds <i>Wen Zhuoru, Zhang Yingyu & Liu Pei</i>	241
The temperature variance method: a powerful tool in the estimation of actual evaporation rates <i>H. F. Vugts, M. J. Waterloo, F. J. Beekman, K. F. A. Frumau & L. A. Bruijnzeel</i>	251
2 Special Problems of Tropical Islands	
KEYNOTE PAPER: Hydrology and water management on small tropical islands <i>A. C. Falkland</i>	263
Investigation of the water cycle using environmental tracers, Bali, Indonesia <i>I. Kayane, T. Tanaka, J. Shimada, Y. Sakura, K. Itadera, Y. Shimano, O. Shimmi, K. Mori & N. Nakai</i>	305
Estimation of recharge to the fresh-water lens of Tongatapu, Kingdom of Tonga <i>L. J. Furness & S. Gingerich</i>	317
Two models to simulate fresh-water lenses in coral atolls <i>K. Inouchi & T. Kakinuma</i>	323
Wind effects on coral island fresh-water bodies <i>Stephen E. J. Swabey</i>	329
Location of fresh-water supplies on Lifuka, Ha'apai Group, Kingdom of Tonga <i>L. J. Furness</i>	337
Hydrological problems and solutions of a small island state in warm humid regions: case of Singapore <i>A. Rahman</i>	343
Flood frequency analysis of the Cul de Sac River, St Lucia, using joint probabilities of rainfall and antecedent catchment conditions <i>M. C. Acreman & D. B. Boorman</i>	353
Water resources management in a tropical island environment. The case of Guadeloupe <i>J. C. Pouget & A. Dezetter</i>	365
3 Urban Problems in the Tropics	
KEYNOTE PAPER: Urban drainage problems in the humid tropics <i>Čedo Maksimović, Zorica Todorović & Benedito P. F. Braga Jr</i>	377

Urban stormwater runoff analysis of upland basins in Tokyo	<i>Y. Ando, T. Nabeyama & S. Nishijima</i>	403
Changes of rainfall infiltration and runoff process due to urbanization	<i>Taro Oka</i>	409
Policy horizon for sustainable urban water management in Nigeria	<i>L. Oyebande</i>	423
4	Groundwater in the Tropics	
KEYNOTE PAPER: Groundwater conditions and problems characteristic of the humid tropics	<i>S. S. D. Foster</i>	433
Groundwater exploitation of a shallow coastal sand aquifer in Sarawak, Malaysia	<i>Y. Mailvaganam, M. Z. Ramli, K. R. Rushton & B. Y. Ong</i>	451
Subsurface water movement and transmission of rainwater pressure through a clay layer	<i>A. Marui, M. Yasuhara, K. Kuroda & S. Takayama</i>	463
Behaviour of subsurface water and solute transport in a steep forested mountainous basin, Japan	<i>M. Tsujimura, T. Tanaka & I. Kayane</i>	471
Recharge estimates for an unconfined aquifer affected by surface mining and rehabilitation	<i>R. E. Volker & M. R. Crees</i>	481
Dynamic response of subsurface water levels in a zero-order tropical rainforest basin, Sabah, Malaysia	<i>Kawi Bidin, I. Douglas & T. Greer</i>	491
Geology and intercepts of multiple regression models as an index of baseflow	<i>Hajime Tanji</i>	497
Water entry, retention and movement in soils of warm humid regions	<i>A. Rahman</i>	503
