| EXECUTIVE SUMMARY | IX |
| 1. INTRODUCTION | 1 |
| 1.1 Research objectives | 1 |
| 1.2 Project organisation | 1 |
| 1.3 Description of study area | 2 |
| 1.3.1 Physical setting | 2 |
| 1.3.2 Industry | 4 |
| 1.3.3 Geology and superficial cover | 4 |
| 1.3.4 Water resources | 10 |
| 1.3.5 Borehole network | 11 |
| 1.4 Nature and uses of chlorinated hydrocarbon solvents | 12 |
| 2. HYDROGEOLOGICAL AND GROUNDWATER POLLUTION CONCEPTS | 17 |
| 2.1 Introduction | 17 |
| 2.2 Hydrogeological concepts | 17 |
| 2.2.1 Multi-level aquifers | 17 |
| 2.2.2 Dual porosity | 19 |
| 2.2.3 Groundwater flow in dual porosity, multi-level aquifers | 20 |
| 2.2.4 Chemical transport | 22 |
| 2.3 Groundwater and soil pollution | 26 |
| 2.3.1 Organic contaminants in groundwater | 28 |
| 2.3.2 Chlorinated hydrocarbon solvents | 29 |

| | Page |
|---|-------------|
| 2.3.3 Development of subsurface chlorinated hydrocarbon solvent pollution | 30 |
| 2.3.4 Biological transformations of chlorinated hydrocarbon solvents in groundwater | 33 |
| 2.4 Summary | 35 |
| | |
| 3. FIELD TECHNIQUES | |
| 3.1 Introduction | 37 |
| 3.2 Soil gas surveying | 37 |
| 3.3 Groundwater sampling methods | 40 |
| 3.3.1 A dedicated multi-level groundwater sampling system | 41 |
| 3.3.2 Level-determined sampling methods for open boreholes | 46 |
| 3.4 Hydraulic testing procedures | 51 |
| 3.5 Summary | 52 |
| | |
| 4. REGIONAL POLLUTION | |
| 4.1 Introduction | 55 |
| 4.2 Regional distribution of chlorinated hydrocarbon solvents in groundwater | 55 |
| 4.2.1 Regional pollution by TCE | 55 |
| 4.2.2 Regional pollution by TCA | 58 |
| 4.2.3 Regional pollution by TCM | 59 |
| 4.2.4 Regional pollution by TeCE | 59 |
| 4.2.5 Regional pollution by TeCM | 60 |

| | Page |
|---|-------------|
| 4.3 Trends in chlorinated hydrocarbon solvent concentrations | 60 |
| 4.4 Factors controlling CHS pollution | 61 |
| 4.5 Comparison of regional inorganic and CHS pollution | 61 |
| 4.6 Comparison of regional CHS pollution in Coventry and Birmingham | 65 |
| 4.7 Summary | 66 |
| | |
| 5. SOURCES, MOVEMENT AND ATTENUATION OF CHS POLLUTION | 68 |
| 5.1 Introduction | 68 |
| 5.2 Sources and entry routes of CHSs into groundwater | 68 |
| 5.2.1 Industry | 68 |
| 5.2.2 Water mains | 70 |
| 5.2.3 Miscellaneous sources | 70 |
| 5.2.4 Sewers | 71 |
| 5.3 Movement of CHSs | 72 |
| 5.3.1 Observations at a local scale | 73 |
| 5.3.2 Regional movement of CHSs | 78 |
| 5.4 Natural attenuation of CHS pollution | 83 |
| 5.5 Summary | 85 |
| | |
| 6. THE FUTURE : POLLUTION PREDICTIONS, GROUNDWATER PROTECTION AND REMEDIATION | 87 |
| 6.1 Introduction | 87 |

| | Page |
|--|-------------|
| 6.2 Predicted future trends in groundwater CHS pollution | 87 |
| 6.2.1 Implications of regional and site surveys | 87 |
| 6.2.2 Land use changes | 88 |
| 6.2.3 Hydrogeological controls | 89 |
| 6.2.4 Changes in CHS usage | 89 |
| 6.2.5 Future extent of groundwater pollution | 90 |
| 6.3 Protection of groundwater from CHS pollution | 91 |
| 6.3.1 Preventing spillages | 93 |
| 6.3.2 Protection from accidental releases | 94 |
| 6.3.3 Clean up | 95 |
| 6.3.4 Regulations, controls and legislation | 96 |
| 6.4 Remediation | 97 |
| 6.4.1 Aquifer rehabilitation | 98 |
| 6.4.2 Physical control measures | 100 |
| 6.4.3 Treatment of groundwater CHS pollution | 102 |
| 6.5 Summary | 103 |
| | |
| 7. CONCLUSIONS | 107 |
| 7.1 Investigation techniques | 107 |
| 7.2 CHS pollution of the Coventry aquifer system | 110 |
| 7.3 Behaviour of CHSs in the subsurface | 113 |
| | |
| REFERENCES | 115 |
