Extended abstracts of a Workshop organised within the framework of Working Party 3 of the Concerted Action 'Organic Micropollutants in the Aquatic Environment' COST 641, held in Helsinki, Finland, 22-23 May 1989

Edited by S. Rekolainen and J. Zeyer

Biotransformation of organic pollutants in the aquatic environment

F 7091

CONTENTS

	Page
Organochlorines in Finnish and Baltic environment: The role of forest industry J. Paasivirta (Finland)	1
Session I : Development of specialized microbial communities to effect biotransformation of pollutants	
Development of a strategy for the treatment of chloroaromatic micropollutants in activated sludge by genetically engineered microorganisms A. Weightman et al. (United Kingdom)	11
Development of specialized microbial strains or communities for the degradation of organic pollutants of industrial waste water streams D. Freier-Schröder and H.J. Knackmuss (Germany)	20
Session II : Uptake and biological effects of pollutants. Test methods to predict the biodegradation of pollutants	
Uptake of tetrachloroguaiacol by brook trout in the presence of macromolecules originating from pulp and paper mill effluents O. Ringstad (Norway)	23
Uptake of organic micropollutants from pulp and paper industry by mussels S. Herve (Finland)	25
A comparative study of test methods for assessment of biodegradability of chemicals in seawater N. Nyholm et al. (Denmark)	27
Session III: Biotransformation of pollutants in groundwater, landfills and sediments	
Degradation of toluene by a Pseudomonas sp. in the absence of molecular oxygen R.J. Schocher et al. (Switzerland)	34
Microbial transformations of chlorinated phenolic compounds under anaerobic conditions A.H. Neilson (Sweden)	41

	page
Transformations of chlorinated aromatics in sediments J.E.M. Beurskens (The Netherlands)	43
Session IV : Biotransformation of pollutants in enrichment cultures, waste water and treatment plants	
Anaerobic transformations and degradation of aromatic compounds A. Tschsch (Germany)	49
Substrate interactions during aerobic biodegradation of benzene E. Arvin et al. (Denmark)	55
Research of organic micropollutants in waste water from olive oil production R.Sanchez Crespo / J.P. Alvarez-Buylla (Spain)	57
Microbial degradation of pentachlorophenol and lindane in laboratory-scale activated sludge reactors B.N. Jacobsen et al. (Denmark)	67
List of participants	84
