TABLE OF CONTENTS

	Page
Review Note	1
Introduction by J.M. Martin	3
List of participants	6
SUB-PROJECT I: REGIONAL INTEGRATION, REMOTE SENSING AND MODELLING OF COASTAL PROCESSES	
Statistics, Data Processing and Near Field Model of the Rhône Plume by J.P. O'Kane et al	9
Marine Hydrodynamical and Biogeochemical Model: General 3D Circulation Model of the Western Mediterranean Sea by J.C.J. Nihoul et al	25
Marine Hydrodynamical and Biogeochemical Model: Lagrangian Dispersion Model & Circulation Model of the Gulf of Cadiz by R. Neves et al	39
Spatial/Temporal Evolution of the Rhône Plume as seen by CZCS Imagery: Consequences upon the Primary Production in the Gulf of Lions by A. Morel et al	45
Chief Scientist Progress Report: Achievements and recommendations by J.P. O'Kane	63
Checklist for Environmental Sampling Procedures by J. Mitchel and J.P. O'Kane	73
SUB-PROJECT II: BIO-ORGANIC PROCESSES IN COASTAL WATERS	
A seasonal Survey of Nutrient Cycling and Primary Productivity in the Gulf of Lions, during 1988 and 1989 by E.M.S. Woodward et al	83
Phytoplankton Distribution in the NW Mediterranean Sea during the EROS 2000-RV Discovery Cruise (December 1988) by Z.R. Velasquez and A. Cruzado	93
Oxygen as Primary Productivity Indicator in the Rhône River Dilution Area and in the Remainder Gulf of Lions, with special Reference to the 'Shallow Oxygen Maximum' (SOM) by M. Minas and H.J. Minas	131
Seasonal Differences in the Control of Productivity in the Rhône Outfall Region of the Gulf of Lions by P.J. le Williams and C. Robinson	145
HPLC Studies of Summer and Winter Distributions of Carotenoid and Chlorophyll Pigments in the North West Mediterranean Sea by R.F.C. Mantoura et al	155

	Page
Structure of Picoplanktonic Populations Determined by Flow Cytometry by D. Vaulot and F. Partensky	167
Seasonality in Atmospheric and Dissolved Nitrous Oxide in the North-West Mediterranean by C.S. Law et al	175
Survey of Amino Acid Nitrogen in Water, Sediment and Aerosol from the Gulf of Lions by A. Spitz et al	187
Distribution of Organic Carbon in the Gulf of Lions: Influence of Rhône Inputs by G. Cauwet	209
Study of the Partitioning of Hydrocarbons into Dissolved and Particulate Phases in the Rhône Delta: Consequences on Estimations of Hydrocarbon Fluxes by I. Bouloubassi and A. Saliot	231
Sources, Distribution and Transport of Naturally-Occurring Hydrocarbons in the Northwestern Mediterranean Sea by Elisabeth Lipiatou and A. Saliot	239
Preliminary Report of the Transfer of Particulate Non-Aromatic Hydrocarbons in the Northwestern Mediterranean Sea. RRV Discovery Cruise 1989 by P. Scribe et al	253
Fluvial Inputs of Organic Matter from the Rhône River to the Northwestern Basin of the Mediterranean Sea: Sterol Composition of Organic Matter by P. Scribe et al	259
Terrestrial Biopolymers in Sediments of the North West Mediterranean Sea by M.A. Gough et al	269
Broad Spectrum Analysis of Organic Markers in the Northwestern Mediterranean by P. Fernández et al	281
Broad Spectrum Analysis of Organic Markers in the Western Mediterranean. Interlaboratory Comparison of Polycyclic Aromatic Hydrocarbons in Sediments by P. Fernández et al	295
Chief Scientist Progress Report: Achievements and Recommendations by R.F.C. Mantoura	301
 SUB-PROJECT III: INORGANIC PROCESSES IN COASTAL WATERS	
Observations on Dissolved Trace Metals in the Gulf of Lions by H. Morley et al	309
Mercury in the Rhône Delta and Adjacent Marine Areas by D. Cossa and J.-M. Martin	329

	Page
Variations in C ₁₈ SEP-PAK Extractable Trace Metals in Samples from the Gulf of Lions by F. Elbaz-Poulichet et al	347
Dissolved Aluminium in the Rhône River Plume and the Gulf of Lions by L. Chou and R. Wollast	361
Trace Metals in the Suspended Matter Collected in the Mixing Zone of the Rhône Estuary by P. Regnier et al	385
Effects of Dissolved Cobalt and Nickel in the Rhône and the Gulf of Lions by H. Zhang and R. Wollast	397
Arsenic and Selenium Distribution in the Rhône Delta and the Gulf of Lions by J.-M. Martin et al	415
Light-Induced Reductive Dissolution of Iron (III) (Hydr) Oxides and of Manganese (III, IV) (Hydr)oxides and Photochemical Oxidation of Adsorbed Organic Substances in the Light-Accessible Part of Surface Waters by Barbara Sulzberger and Aglaia Xyla	435
Rate of Transfer of Trace Elements from the Dissolved to the Particulate Phase by R. Wollast and M. Loijens	453
Chief Scientist Progress Report: Achievements and Recommendations by R. Wollast	463
 SUB-PROJECT IV: PARTICLES AND SEDIMENT-WATER INTERACTIONS	
Determination of Sediment Accumulation and Mixing Rates in the Gulf of Lions, the Mediterranean Sea by Z. Zuo et al	469
Surface Properties of Particulates and Distribution of Selected Pollutants in the Rhône Delta and the Gulf of Lions by J.M. Garnier et al	501
Fractionation of Selected Metals between the Dissolved and Particulate Phases in the Rhône River Estuary by J.-M. Mouchel	525
Particles and Sediments — Water Exchanges Investigations on Magnetic Properties of Sediments of the Rhône Estuary and the Gulf of Lions during the Phase I of the EROS-2000 Project (1988-1989) by M.J. Scoullou et al	547
Bacterial Processes in Sediments by T.H. Blackburn et al	561

	Page
Distribution of Nickel in Sediment and Porewater in the Gulf of Lions (Mediterranean Sea) by R.F. Nolting and W. Helder	577
Chief Scientist Progress Report: Achievements and Recommendations by D. Eisma	593
 SUB-PROJECT V: ATMOSPHERIC INPUT TO MARINE WATERS	
Atmospheric Trace Metals Transported to the Western Mediterranean: Data from a Station on Cap Ferrat by R. Chester et al	597
Atmospheric Input of Trace Metals (Cd, Co, Cu, Fe, Mn, Ni and Pb) to the Gulf of Lions by C. Guieu et al	613
Atmospheric Wet Deposition of Inorganic Nitrogen to the North Western Mediterranean Basin by M.D. Loye-Pilot et al	623
Particulate Aerosol Nutrient Inputs into the North-Western Mediterranean Sea by Marta Alarcón and A. Cruzado	635
Composition of the Coastal Aerosol and its Variability over Time: First Assessment of the Terrestrial Component from the Cap Ferrat Sampling Station by M.A. Sicre et al	645
Background Levels of Atmospheric Hydrocarbons, Sulphate and Nitrate over the Western Mediterranean by R. Simó et al	657
Chief Scientist Progress Report: Achievements and Recommendations by R. Chester	667
