CONTENTS

	Page
Introduction	
J.-M. Martin, Institut de Biogéochimie Marine, Ecole Normale Supérieure, Montrouge, France	1
In memoriam Prof. Dr. Egon Degens	
J.-M. Martin, Institut de Biogéochimie Marine, Ecole Normale Supérieure, Montrouge, France	3
<u>SESSION I: REGIONAL INTEGRATION, REMOTE SENSING AND MODELLING OF COASTAL ZONE PROCESSES</u>	5
Preliminary results of a three-dimensional model of the western Mediterranean's general circulation	
J.C.J. Nihoul and J.M. Beckers, GHER, Université d'Etat de Liège, Belgium	7
Preliminary results from a three-dimensional hydrodynamic model of the Rhône plume	
J.P. O'Kane and J. Turner, Centre for Water Resources Research, University College Dublin, Dublin, Republic of Ireland	27
Ecological modelling of particles feeders in the north-western Mediterranean Sea*)	
P. Nival, G. Gorsky, S. Nival and V. Andersen, Station Zoologique, CEROV, Villefranche-s-M, France	44
First insight into CZCS imagery as a tool for describing the Rhône river plume extension and variability	
A. Morel, A. Bricaud, S. Maritorena and J.M. André, Laboratoire de Physique et Chimie Marines, Villefranche-s-M, France	49
Laboratory simulations of particle deposition on wavy surfaces	
F. Tampieri, F. Prodi, G. Cesari and U. Bonafé, FISBAT-CNR, Bologna, Italy	55
<u>SESSION II: BIOORGANIC PROCESSES</u>	65
Nutrient distribution in the Gulf of Lions, Winter 1989	
A. Cruzado and Z.R. Velasquez, Centre d'Estudis Avançats, Blanes, Spain	67
The influence of the river Rhône upon the nutrient fluxes of the Golfe du Lion	
E.M.S. Woodward and N.J.P. Owens, NERC-Plymouth Marine Laboratory, Plymouth, United Kingdom	79

Early diagenesis and sediment-water exchange in the Golfe du Lion W. Heider, Netherlands Institute for Sea Research (NIOZ), Den Burg/Texel, The Netherlands	87
Carbon and nitrogen mineralization in Gulf of Lions sediments T.H. Blackburn and B.A. Lomstein, Department of Ecology and Genetics, Aarhus University, Aarhus, Denmark	102
Primary production in the Gulf of Lions, with considerations to the Rhône river inputs M. Minas and H.J. Minas, C.O.M.-Faculté des Sciences de Luminy, Marseille, France	112
Size-fractionated primary production and nitrogen assimilation in the north-western Mediterranean Sea during January 1989 N.J.P. Owens, A.P. Rees, E.M.S. Woodward and R.F.C. Mantoura, NERC-Plymouth Marine Laboratory, Plymouth, United Kingdom	126
Winter distribution of marine cyanobacteria (<i>Synechococcus</i> spp.) in the north-western Mediterranean Sea D. Vaultot and F. Partensky, CNRS UPR 4601 and Université de Paris 6, Station Biologique, Roscoff, France	136
Interrelationships between carbon, oxygen and nitrogen metabolisms P.J. le B. Williams, C. Robinson and N.P.J. Owens, School of Ocean Sciences, University College of North Wales, Bangor, and NERC-Plymouth Marine Laboratory, Plymouth, United Kingdom	150
Consumption and production of nitrous oxide in the Golfe du Lion C.S. Law, A.P. Rees and N.J.P. Owens, NERC-Plymouth Marine Laboratory, Plymouth, United Kingdom	155
Distribution and inputs of terrestrial and faecal molecular organic markers and photosynthetic pigments in the Rhône delta and Gulf of Lions J.W. Readman, R.F.C. Mantoura, M.A. Gough, C.A. Llewellyn and M. Caruso Bicego, NERC-Plymouth Marine Laboratory, Plymouth, United Kingdom, and Instituto Oceanográfico, Universidade de Sao Paulo, Sao Paulo, Brazil	162

Application of the biogeochemical marker approach for determining the inputs and fate of biogenic and anthropogenic organic matter in the Rhône delta: non-aromatic hydrocarbons and sterols associated to particles P. Scribe, C. Pepe, C. Fuche, C. Barreau, R. Sempere, I. Bouloubassi and A. Sallot, Laboratoire de Physique et Chimie Marines, Université P. et M. Curie, Paris, and Laboratoire de Sédimentologie et Géochimie Marines, Perpignan, France	173
Polycyclic aromatic hydrocarbons (P.A.H.) in the Gulf of Lions' sediments (Tyro cruise, July 1987) E. Liplatou and A. Sallot, Laboratoire de Physique et Chimie Marines, Université P. et M. Curie, Paris, France	179
Broad spectrum analysis of organic markers in the northwestern Mediterranean M. Valls, P. Fernandez, J.M. Bayona and J. Albaiges, Environmental Chemistry Department, CID-CSIC, Barcelona, Spain ...	184
<u>SESSION III: INORGANIC PROCESSES</u>	197
Mercury and trace metals in waters of the western Mediterranean R. Ferrara and A. Seritti, CNR-Istituto di Biofisica, Pisa, Italy	199
Preliminary results on trace elements distribution in the Gulf of Lions (TYRO cruise, July 1987) P. Seyler, F. Elbaz-Poulichet, D.M. Guan, X.M. Zhong and J.M. Martin, Institut de Biogéochimie Marine, Ecole Normale Supérieure, Montrouge, France	207
Dissolved trace metals in the Golfe du Lion: preliminary results N.H. Morley, J.D. Burton and P.J. Statham, Department of Oceanography, Southampton University, Southampton, United Kingdom	223
Distribution and geochemistry of aluminium in the Mediterranean Sea L. Chou and R. Wollast, Laboratory of Chemical Oceanography, Free University of Brussels (ULB), Brussels, Belgium	232
Uptake of labeled trace metals by marine particles R. Wollast and M. Loijens, Laboratory of Chemical Oceanography, Free University of Brussels (ULB), Brussels, Belgium	241

	Page
The effect of light on the geochemical cycling of Iron and manganese in natural waters*) C. Siffert and B. Sulzberger, Federal Institute for Water Resources and Water Pollution Control (EAWAG), Swiss Federal Institute of Technology (ETH), Zurich, Switzerland	251
<u>SESSION IV: PARTICLES AND SEDIMENT/WATER INTERACTIONS</u>	259
Particle size distribution J.C. Brun-Cottan, Institut de Biogéochimie Marine, Ecole Normale Supérieure, Montrouge, France	261
Surface properties of suspended matter and adsorption of trace metals in the Rhône delta waters: preliminary results J.-M. Mouchel, J. Jednacak-Biscan and J.-M. Garnier, Institut de Biogéochimie Marine, Ecole Normale Supérieure, Montrouge, France, Rudjer Boskovic Institute, Zagreb, Yugoslavia and CERGRENE-Ecole Nationale des Ponts et Chaussées, Noisy-le-Grand, France	268
Flux of artificial radionuclides and organochlorine compounds in the northwestern Mediterranean basin*) S.W. Fowler, V.E. Noshkin and L.D. Mee, International Laboratory of Marine Radioactivity, IAEA, Monaco ...	288
Recent sediment accumulation in the Gulf of Lions Z. Zuo, D. Eisma and G.W. Berger, Netherlands Institute for Sea Research (NIOZ), Den Burg/Texel, The Netherlands	298
Preliminary results about dissolved and particulate trace metals in sediments of the Gulf of Lions R.F. Nolting, Netherlands Institute for Sea Research (NIOZ), Den Burg/Texel, The Netherlands	314
Preliminary results of mineral magnetic measurements of the Rhône estuary and the Gulf of Lions M.J. Scoulios and C. Zerl, Department of Chemistry, University of Athens, Greece	341
<u>SESSION V: RIVER VERSUS ATMOSPHERIC INPUTS</u>	355
Atmospheric inputs of trace metals, trace organics and nutrients to the western Mediterranean - The EROS 2000 programme R. Chester, M. Nimmo and K.J.T. Murphy, Department of Earth Sciences, University of Liverpool, United Kingdom	357

	Page
Atmospheric input of particulate matter and inorganic nitrogen to the north-western Mediterranean M.D. Loye-Pilot, J.M. Martin and J. Morelli, Institut de Biogéochimie Marine, Ecole Normale Supérieure, Montrouge, France	368
Wind-blown particles collection from ships and land-based stations in the Mediterranean Sea: a review of trace metals sources*) S. Guerzoni, A. Correggiari and S. Miserocchi, Istituto di Geologia Marina - CNR, Bologna, Italy	377
Evidence for physical control of O₂ and T- CO₂ in the outflow of the Rhône estuary C. Robinson and P.J. le B. Williams, University College of North Wales, Bangor, United Kingdom	387
Dissolved trace metals and metalloids in the Rhône river/estuarine system F. Elbaz-Poullichet, D.M. Guan, P. Seyler, J.M. Martin, N.H. Morley, P.J. Statham, J.D. Burton, L. Mart and P. Klahre, Institut de Biogéochimie Marine, Ecole Normale Supérieure, Montrouge, France, Department of Oceanography, University of Southampton, United Kingdom, and Institute for Applied Physical Chemistry, Nuclear Research Centre (KFA), Jülich, Federal Republic of Germany	395
River versus atmospheric input to the western Mediterranean: a summary J.M. Martin, F. Elbaz-Poullichet, C. Guleu, M.D. Loye-Pilot and G. Han, Institut de Biogéochimie Marine, Ecole Normale Supérieure, Montrouge, France	423
General Conclusions and Recommendations	
Members of the Scientific Steering Committee of the EROS 2000 project (edited by R.F.C. Mantoura, J.M. Martin and H. Barth)	435
List of participants	443

*) Invited paper by scientists/institutes actually not officially participating in the EROS 2000 project
