Table of contents

Foreword	III
Opening addresses	
Address by the President of the European Aquaculture Society J.R. Joyce	3
Address by the Representative of the Fisheries Directorate-General of the Commission of the European Communities E. Mastracchio	9
Address by the President of Ireland M. Robinson	13
EAS Honorary Life Member 1991	
Dr. E. Edwards	19
Keynote address	
Aquaculture and the environment R.J. Gowen	23
Impact of aquaculture on the aquatic environment	
An assesment of the compatibility between fish farming and the Norwegian coastal environment J. Raa and H. Liltved	51
Impact of aquaculture on the freshwater environment: the Danish experience C.K. Mathiesen	61
Impact of aquaculture on the aquatic environment in relation to applied production systems S.E. Papoutsoglou	71
Impact of pollution from aquaculture in six Nordic countries. Release of nutrients, effects, and waste water treatment B. Braaten	79
Environmental impact assessment and aquaculture in Ireland M. O'Sullivan	103
Aquaculture: the case for environmental audit D.C. Hockin	109

Husbandry and environmental quality monitoring

Water quality fluctuations and monitoring in intensive fish culture M.G. Poxton	121
Environmental monitoring for fish farms in Ireland M.P. Hensey	145
Impacts of aquaculture on surrounding sediments: generation of organic-rich sediments M. Holmer	155
Water quality criteria and monitoring for marine mollusc culture: the French experience M. Héral and J.P. Berthomé	177
Site selection and environmental monitoring in the mariculture industry: an integrated protocol B. O'Connor, M. Hartnett, and J. Costelloe	191

Animal health and the environment

Animal health and the environment I.M. Davies	205
Dichlorvos and alternative sealice treatments D. Jackson and M.J. Costello	215
Antibiotics and the alternatives P. Smith	223
Malachite green and alternatives as therapeutic agents D.J. Alderman	235
A review of the nature, function, variability, and supply of pigments in salmonid fish M. Putnam	245
Demands for environmental testing of antibacterials to be used in Norwegian fish farming and environmental solutions H. Røed	265

Biological interactions in wildlife

Conservation and aquaculture J.G. Munford and J.M. Baxter	279
Potential genetic interactions between reared and wild fish in Europe, with particular emphasis on Atlantic salmon T.F. Cross	299
Predators and methods of control in molluscan shellfish cultivation in North European waters B.E. Spencer	309

Predator control on finfish farms D.L. Howell and J.G. Munford	339
-------------------------------------------------------------------------	-----

Health and safety in the work environment

The European Community and the national legislation V. Wall	367
Health and safety in the work environment: the view from the industry J.S. Buchanan	381
New biocides used against sea lice compared to organo-phosphorous compounds K. Boxaspen and J.C. Holm	393

Planning strategies for sustainable development of aquaculture

Aquaculture and user conflicts A.J. O'Sullivan	405
Nationwide assessment of the suitability of the Norwegian coastal zone and rivers for aquaculture (LENKA) H.O. Ibrek, H. Kryvi, and S. Elvestad	413
Coastal resource inventories: a pacific coast strategy for aquaculture development E.A. Black	441
Steps towards a sustainable fish farming industry, environmental goals and new regulations to achieve these for fish farming in Norway H. Leffertstra	461

The social and economic impact of aquaculture

The social and economic impact of aquaculture: a European review A.E. Neiland, S.A. Shaw, and D. Bailly	469
Employment and aquaculture A.V. Zagorodny	483
Aquaculture and tourism: a case study S. Georgiev and A. Cilevski	489
An economic assessment of aquaculture in Ireland R. O'Connor and B.J. Whelan	497
Aquaculture and rural development in Western Ireland S. Garvey and J. Bennett	517

Recommendations for managing the environmental impact

Panel report R.J. Gowen and E.A. Black	527
Subject index	531
Author index	534
