Centre National de la Recherche Scientifique, Centre de Géochimie de la Surface, 1 Rue Blessig, F-67084 Strasbourg Cedex, France

Proceedings of an international symposium (Symposium S6) held during the Fifth Scientific Assembly of the International Association of Hydrological Sciences (IAHS) at Rabat, Morocco, from 23 April to 3 May 1997. This symposium was convened by the IAHS International Commission on Continental Erosion (ICCE).

The symposium was sponsored by the United Nations Educational, Scientific and Cultural Organization, the World Meteorological Organization and the Moroccan Water Resources Association.

Contents

Preface by <i>Des Walling, Jean-Luc Probst & Azaddine Diouri</i>	v
1 Human Impact on Erosion	
Soil erosion in the vineyards of Champagne <i>Philippe Gourbesville</i>	3
Soil erosion on dry farming land in two changing environments of the central Ebro Valley, Spain <i>A. Navas, J. M. Garcia-Ruiz, J. Machin, T. Lasanta, B. Valero, D. E. Walling & T. A. Quine</i>	13
Simulation of runoff and erosion on mountainous roads in northern Thailand: a first look <i>Alan D. Ziegler & Thomas W. Giambelluca</i>	21
Developing a sheet erosion equation for a semiarid region <i>Celso Augusto Guimarães Santos, Koichi Suzuki, Masahiro Watanabe & Vajapeyam Srirangachar Srinivasan</i>	31
Impact d'un incendie de forêt sur l'hydrologie et l'érosion hydrique d'un petit bassin versant méditerranéen <i>J. Lavabre & C. Martin</i>	39
Impact sur l'environnement des travaux d'aménagement de la Station de Ski de Sierra Nevada (Espagne) <i>Antonio Pulido-Bosch, Juan Gisbert & Ghatafan Al-Alwani</i>	49
Transports de matières en suspension sur petits bassins versants au Mali: influence des surfaces cultivées <i>J. P. Droux, M. Mietton & J. C. Olivry</i>	57
Écoulement et transfert de sédiments dans les bassins versants de grande culture sur basalte du Rio Grande do Sul (Brésil) <i>Nilza Maria dos Reis Castro, Anne-Véronique Auzet, Marc Bordas, Pierre Chevallier, Jean-Claude Leprun & Michel Mietton</i>	65
2 Human Impact on Sediment Yields	
The response of sediment yields to environmental change <i>D. E. Walling</i>	77
The impact of hill land clearance and urbanization on runoff and sediment yield of small catchments in Pulau Pinang, Malaysia <i>Wan Ruslan Ismail</i>	91
Sediment delivery to streams from adjacent slopes on agricultural land in Denmark <i>Bent Hasholt, Bjarne S. Hansen, Christian Olsen, Preben Olsen & Erik Sibbesen</i>	101
Human impact upon sediment in rivers: some examples from Hong Kong <i>Mervyn R. Peart</i>	111
Assessing the impact of overgrazing on soil erosion in arid regions at a range of spatial scales <i>K. D. Sharma</i>	119
Hydrological characteristics influenced by deforestation in tropical areas: the Mae Tang River basin, Thailand <i>Koji Nishimura, Toru Shimada, Takashi Yamada, Yoshiharu Ishikawa & Thada Sukapunnaphan</i>	125
Analysis of erosion in a catchment affected by a landslide <i>Mary-Jeanne Adler, George Stăncălie & Eugen Drăgoi</i>	135
Land use changes and their effects on sediment transport and soil erosion within the Athi drainage basin, Kenya <i>Shadrack Mulei Kithiia</i>	145

Assessing the effects of land-use changes on sediment yield and channel dynamics in the central Spanish Pyrenees <i>Jose M. Garcia-Ruiz, Sue M. White, Teodoro Lasanta, Carlos Marti, Constanza Gonzalez, M. Paz Errea, Blas Valero & Luis Ortigosa</i>	151
The role of unmetalled roads as a sediment source in the fluvial systems of the Polish Flysch Carpathians <i>W. Froehlich & D. E. Walling</i>	159
Sediment yields in a changing environment: a historical reconstruction using reservoir bottom-sediments in three contrasting small catchments, North York Moors, UK <i>Joan Lees, Ian Foster, David Jones, Phil Owens, Des Walling & Graham Leeks</i>	169
 3 Sediment Management and Control Strategies	
Sediment management and flood protection of desert towns: effects of small catchments <i>Asher P. Schick, Tamir Grodek & Judith Lekach</i>	183
The impact of erosion control measures on runoff processes <i>Ratko Ristic & Grigorije Macan</i>	191
Narrow stiff grass hedges for erosion control <i>Jerry C. Ritchie, W. Doral Kemper & John M. Englert</i>	195
Use of satellite imagery to determine the land use management factors of the USLE <i>Zainal Abidin Roslan & Kia Hui Tew</i>	205
Application of a distributed Shallow Landslide Analysis Model (dSLAM) to managed forested catchments in Oregon, USA <i>Weimin Wu & Roy C. Sidle</i>	213
Application of a pedogeomorphic approach to sediment management strategies in the High Atlas mountains, southern Morocco <i>J. P. Newell Price, H. R. Fox, H. M. Moore, H. C. Harrouni & A. El Alami</i>	223
 4 Reservoir Sedimentation and the Impact of River Regulation	
Soil erosion and reservoir sedimentation in the High Atlas Mountains, southern Morocco <i>H. R. Fox, H. M. Moore, J. P. Newell Price & M. El Kasri</i>	233
Sediment deposition in the Barasona reservoir (central Pyrenees, Spain): temporal and spatial variability of sediment yield and land use impacts <i>Blas Valero-Garcés, Ana Navas & Javier Machín</i>	241
Problems of sedimentation in small dams in Zambia <i>Henry M. Sichingabula</i>	251
The potential impact of neo-Castorization on sediment transport by the global network of rivers <i>Charles J. Vörösmarty, Michel Meybeck, Balázs Fekete & Keshav Sharma</i>	261
Reservoir construction, river sedimentation and tributary sediment size <i>Robert T. Milhous</i>	275
River regulation and sediment transport in a semiarid river: the Murrumbidgee River, New South Wales, Australia <i>Laurie J. Olive & Jon M. Olley</i>	283
The influence of the Mosul dam on the bed sediments and morphology of the River Tigris <i>Nadhir A. Al-Ansari & Omar Rimawi</i>	291
Human impact on sediment yield and channel dynamics in the Arno River basin (central Italy) <i>Paolo Billi & Massimo Rinaldi</i>	301

British Library Cataloguing-in-Publication Data.

A catalogue record for this book is available from the British Library.

IAHS is indebted to the employers of the editors for their invaluable support and services provided that enabled the editors to work effectively and efficiently. Support from the Department of Geography, University of Exeter, for the first editor is particularly appreciated and acknowledged.

The designations employed and the presentation of material throughout the publication do not imply the expression of any opinion whatsoever on the part of IAHS concerning the legal status of any country, territory, city or area or of its authorities, or concerning the delimitation of its frontiers or boundaries.

The use of trade, firm, or corporate names in the publication is for the information and convenience of the reader. Such use does not constitute an official endorsement or approval by IAHS of any product or service to the exclusion of others that may be suitable.

The editors would like to express special thanks to everyone who helped with the assembly and production of this proceedings volume, and in particular to Penny Kisby who coordinated the preparation of the camera-ready copy and ensured that the various deadlines leading up to the final printing and publication were met and to Heather Turner, Debbie Norris and Jocelyn Coverdale who helped Penny battle with the problems of transforming heavily-edited manuscripts and word processor diskettes generated by many different systems into the final camera-ready copy.
