

Re/Use of Industrial Wastewater by the
Extraction of Organic Chemicals Through
Poroplastic Membranes

.. 66/3 7341

Moleculon Research Corp.

CONTENTS

Acknowledgements	ii
Abstract	iii
Disclaimer.....	iv
Figures & Tables	vii
Section 1. Background	1
1.1 Objectives	1
1.2 Liquid-Liquid Extraction Technology	1
1.21 Bound Liquid Membrane Technology	2
1.3 Requirements for Bound Liquid Membrane Extraction Systems	2
1.31 Membrane Requirements	2
1.32 Engineering Requirements	3
1.33 Poroplastic Membranes	3
Section 2. Industrial Needs	5
Section 3. Experimental Methods	7
3.1 Experimental Approach	7
3.2 Equipment	7
Section 4. Acetic Acid Studies	15
4.1 Experimental Results	15
4.2 Bound Liquid Membranes vs. Liquid-Liquid Systems - Economic Analysis	17
Section 5. Phenol Studies	19
5.1 Experimental Results	20
5.2 Bound Liquid Membranes vs. Liquid-Liquid Systems - Economic Analysis	22
5.21 Experimental Basis	23
5.22 Economic Comparison	26
Section 6. Extraction of Industrially Important Halogenated Organics ...	31
Section 7. Market Research	35
7.1 Use Requirements	35
7.2 National Industrial Associations	35
7.3 Academia	35

7.4	Environmental Protection Agency	36
7.5	Real Process Samples	37
7.6	Equipment Manufacturers	37
7.7	Research Conclusions	37
Section 8. Conclusions		39
8.1	General Observations	39
8.2	Market Considerations	39
8.3	Further Work Needed	40
8.4	Closing Remarks	40
References		41
